Holidays Home at 250 mt from this beach

Hello everyone,
I'm Silvia, medievalist archaeologist and teacher of Italian literature at a high school.
Together with my husband Tommaso have chosen to offer our guests a wonderful apartment adjacent to our house.

We live in Taranto, precisely Cape San Vito, in a modern residential complex which is just 250 meters from the beach and minutes from other beaches that surround the head as well as marinas equipped for diving and sailing schools.

The beach of Sunset Boulevard is very nice because it degrades slowly and can take long walks in the water and snorkel masks to comply with the famous "pinna nobilis", bivalve molluscs, from which was extracted the "bisso", a special ancient natural fabric.

Also a short walk from our apartment there are pizzerias, restaurants, pubs and takeaways to be able to remove all your gastronomic fancies.

A couple of blocks away is the church, the pharmacy and the famous CEMM School, the NCO Academy of the Navy.

Our holidays home is always open and allows you to enjoy a relaxing holiday immersed in the Ionian Sea.

We love animals and allow our guests to bring dogs and cats.

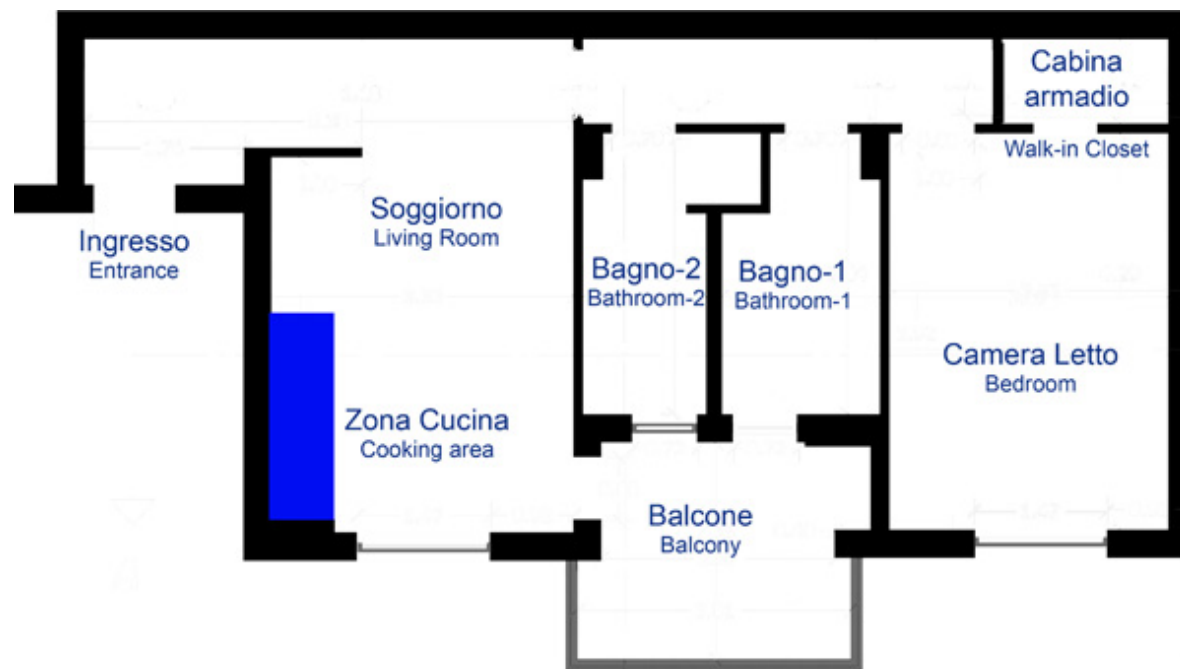

We are waiting for you!!
